CAREER OBJECTIVE

Detail-oriented Frontend Developer and BS Computer Science student at Virtual University of Pakistan with hands-on experience in HTML, CSS, Tailwind CSS, JavaScript, and React. Passionate about building clean, responsive user interfaces and continuously expanding technical skills. Actively documenting a public learning journey on LinkedIn through the #100DaysOfCode challenge and contributing real projects to GitHub.

TECHNICAL SKILLS

HTML5	Advanced — Semantic markup, page structure, accessibility best practices
CSS3 + Tailwind CSS	Strong — Flexbox, Grid, utility-first styling with Tailwind
JavaScript (ES6+)	Intermediate — DOM, Local Storage, Promises/async-await, Fetch API
React	Basics — Hooks, Context API, Redux Toolkit, React Router
Responsive Design	Good — Mobile-first layouts across different screen sizes
Git & GitHub	Good — Version control, branching, daily commits, public repos
VS Code	Proficient — Primary development environment

EDUCATION

Bachelor of Science in Computer Science (BSCS) 2025 – 2028
Virtual University of Pakistan | Currently in 4th Semester | Expected Graduation: 2028

Intermediate — ICS (Physics, Math, Computer Science) Completed 2023
Board of Intermediate & Secondary Education | Grade: 64%

PROJECTS & PRACTICAL WORK

Hisaab — Smart Expense Tracker JavaScript, HTML, CSS | GitHub

- Built a personal finance dashboard to track income, expenses, and category-wise budgets with a live balance and savings-rate overview
- Used DOM manipulation and Local Storage for data persistence, plus the Fetch API for live currency conversion
- Added budget monitoring, search/filter, and category breakdown of transactions

Password Generator React, Vite, Tailwind CSS | GitHub

- Built a configurable password generator with adjustable length and number/character options using React Hooks
- Applied useState, useCallback, useEffect, and useRef for state management, regeneration, and one-click clipboard copy

JazzCash Wallet Simulator JavaScript | GitHub

- Object-oriented wallet app with deposit, withdraw, and balance features
- Applied OOP principles including this keyword, method design, and encapsulation

Responsive Web Pages HTML, CSS, Tailwind CSS

- Built multiple responsive layouts using Tailwind CSS utility classes
- Focused on mobile-first design, clean UI structure, and cross-device compatibility

SOFT SKILLS & STRENGTHS

- Self-Directed Learner — Independently pursuing frontend development outside university curriculum
- Problem Solver — Approaches coding challenges systematically and logically
- Public Communicator — Builds professional brand through consistent LinkedIn and GitHub activity

- Growth Mindset — Treats setbacks as opportunities to upskill and improve

CERTIFICATIONS & CONTINUOUS LEARNING

- React Js Full Course — Chai aur Code by Hitesh Choudhary (In Progress)
- Tailwind CSS — Self-directed study through official documentation and projects
- #100DaysOfCode Challenge — Active participant, daily progress on LinkedIn
- C++ Essentials — Cisco Networking Academy, completed via Virtual University of Pakistan
